

Here's what past participants have to say about INSIDE THE SYSTEM:

"I can't imagine a better program than Earl Baker's INSIDE THE SYSTEM for learning about Pennsylvania's Government and Politics. I wasn't sure what to expect but hearing all the presenters share their knowledge about every facet of the system has given me a tremendous sense of understanding about the layers and levels involved, and confidence in dealing with the issues and people. Being proactive will always trump being reactive and that message came across loud and clear. This is one of those learning experiences I will never forget."

Paul Delp, President
Lansdale Warehouses Co. Inc.

"We heard from a wide variety of very experienced business and political leaders in Pennsylvania who talked to us in small group settings, where we could ask questions and engage in dialogue. My fellow classmates brought a wealth of experience and plenty of enthusiasm to each phase of the program. I wholeheartedly recommend this program to anyone."

Warren Kampf, Partner
White and Williams LLP

"As a Chamber Executive, I found the Executive Leaders Program extremely helpful. Our Chamber provides strong government advocacy for our member businesses. The program deals with many of the issues facing our members and to personally engage with the presenters was a valuable experience for me. My perspective has been broadened and my knowledge of how business issues are handled in Harrisburg will be of great benefit to me, our Chamber, and to our members."

Sheila Himes, Vice President, Chamber Operations
Harrisburg Regional Chamber & CREDC

"The program did me a tremendous service on both a personal and professional level. I was not only exposed to over 45 prominent civic and business leaders; I became part of their network and they a part of mine. The same is true of my fellow participants. Its benefits in terms of networking, knowledge and resources are immediate, effective, and capable of expansion and will prove to be long-lasting."

Michael Maholick, Engineering Associate
McCormick Taylor Engineers and Planners

"Whether you're a veteran or a new arrival to the Commonwealth, this program is an excellent boot camp to gain an understanding of the major issues facing the state and the business agenda. Finally and most importantly, the program provided me with opportunities to develop potentially long-lasting friendships with my classmates and other business and public service leaders. Thank you PBC for offering such a terrific and well-needed program!"

Elisa Basnight, Attorney
Buchanan Ingersoll & Rooney PC

A Unified Voice for Business

The Pennsylvania Business Council (PBC) was formed in August 2007 by the merger of Pennsylvanians for Effective Government (PEG) — the state's oldest pro-business political action committee — and the Pennsylvania Business Roundtable (PBR) — a CEO driven public policy organization. PBC was created to give the business community a stronger and more focused public policy and advocacy organization and a unified voice.

H. Craig Lewis	Former Vice President -Corporate Affairs	Norfolk Southern Corporation
W. Kirk Liddell	Chairman, President and CEO	IREX Contracting Group
C. Alan Walker	President and CEO	Bradford Energy Company, Inc.

Designed for a Successful Learning Experience

Uniquely qualified to direct the Business Executive Leaders Program, Earl Baker served in the Pennsylvania Senate for two terms, heading the Labor and Industry Committee. He then was Vice President for State Government Relations, Unisys Corporation. In his career, Earl has been: professor of political science at Temple University; three term commissioner of Chester County; state party chairman; and CEO of a nonprofit long term care organization. Based on this ideal combination of direct hands-on government experience and professional knowledge, Earl designed the executive training program with an Advisory Board, (see above) and partners with the Pennsylvania Business Council to provide a training program in Pennsylvania politics, government, and public affairs to "fast track" executives identified by their firms as senior management or prospects for senior management. Earl will lead all of the sessions, with invited speakers who are expert in the topics being covered including: elected officials, former elected officials, administrative officials, and others selected for their personal and professional knowledge of the governmental and political process.
